**Endocrine Self-Assessment Program (ESAP™), Reference Edition** is a self-study curriculum for physicians and health professionals wanting a self-assessment and a broad review of endocrinology. It consists of approximately 120 multiple-choice questions in all areas of endocrinology, diabetes, and metabolism. **Updated annually. Approximately 200 pages.**

### Target Audience

Aimed at physicians seeking initial certification or recertification in endocrinology, ESAP™ is produced for program directors interested in accessing a testing and training instrument, and clinicians wanting a self-assessment and broad review of endocrinology.

- Physician-in-practice
- Fellow
- Resident
- Clinical researcher
- Educator/Teacher

### Competency Area

- Professionalism
- Patient Care and Procedural Skills
- Medical Knowledge
- Practice-based Learning and Improvement

### Learning Objectives

- Recognize clinical manifestations of endocrine and metabolic disorders and select among current options for diagnosis, management, and therapy
- Identify risk factors for endocrine and metabolic disorders and develop strategies for prevention
